

New Cyclamen

Earley Ornamentals Cyclamen Mini Update

Continuing to develop our product offer to meet the needs of the UK market, we've made six new introductions to our Cyclamen Mini collection.

Cyclamen Mini products brighten up gardens and patios throughout autumn. The comprehensive and commercial Earley range includes **Metis**®, **Smartiz**® and **Super Serie**® varieties.

Following feedback from professional growers, the number of reds in the **North Mix** has been increased.

The new offer is available in 360 plug size and is ideal for 9-11cm pots.

New Metis®

This variety includes four new introductions.

Origami Silverleaf has been awarded Morel's '*Outstanding for tolerance in cold*'. It delivers a unique small flower with variegated silver leaf.

The improved **North Mix** is now more suitable for cooler, shorter days, making it ideal for UK weather conditions.

Following feedback from our professional growers, the number of reds in the mix has been increased.

Also awarded Morel's '*Outstanding for tolerance in cold*', **Absolu de Morel** is one of the most fragrant and defined colours in this segment.

Crispino Mix is the latest frilled edge series. Delivering a more uniform and robust plant.

New Super Serie®

Crayon F1 Mix is a combination of four colours, and its robust, reliable genetics make it ideal for UK production. An open habit with bunched flowers sitting in the middle, this mushroom-shaped plant provides a unique blend of decorative flowers.

Carino Fuji Mix of four colours delivers a distinctive flowering pattern. It is bred from a combination of Mini Winter for its strong, robust plants and the speed and uniformity of Virano.

Super Serie® Carino Fuji Mix

Super Serie® Crayon Mix

NEW CYCLAMEN FOR 2023

New striking cyclamen – Indiaka®

Generating a colourful profusion of flowers, **Indiaka®** produces long-lasting blooms ideal for beds and patios.

Available in a four colour mix, the eye-catching bicour flowers show a contrast between the white base of the petal and the brightly coloured extremities.

A range of colour and size options

With an exceptional choice from world-class breeders, the Earley Ornamentals cyclamen range provides an opportunity for both selling on to retail customers and reliable options for parks and landscape designers.

The range features a wide selection of varieties, the latest colours and novelties, including **frillies**, **flames** and **silver leaf**.

There are options to suit all requirements, from pack production to large pots, as well as plants for both indoor and outdoor use.
